Actual recoveries to MSP from its claims portfolio may vary materially from the projected amounts of potentially recoverable claims. Accordingly, we caution you against relying on forward-looking statements. Forward looking statements also are subject to a number of significant risks and uncertainties that could cause the actual results to differ materially, and potentially adversely, from those express or implied in the forward-looking statements. These statements are based on various assumptions, whether or not identified in this communication, and on the current expectations of management and are not predictions of actual performance. Actual events and circumstances are difficult or impossible to predict and may differ from assumptions, and such differences may be material. Many actual events and circumstances are inherently subject to significant business, economic and competitive uncertainties and contingencies, and are beyond the control of MSP and LCAP and are difficult to predict. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on by any investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Factors that may cause such differences include, but are not limited to, any inaccuracies in the assumptions underlying MSP's forecasts over time, including its estimates of paid amount of potentially recoverable claims; the occurrence of any event, change, or other circumstances that could give rise to the termination of the Membership Interest Purchase Agreement (as may be amended from time to time, the "MIPA") entered into in connection with the proposed business combination; the outcome of any legal proceedings that may be instituted against LCAP or MSP or affiliated companies following the announcement of the proposed Business Combination; the inability to complete the proposed Business Combination on the expected time frame or at all, including due to failure to obtain approval of LCAP's stockholders, certain regulatory approvals, or the satisfaction of other conditions to closing in the MIPA; the occurrence of any event, change, or other circumstance that could give rise to the termination of the MIPA or could otherwise cause the proposed Business Combination to fail to close; the inability to obtain or maintain the common stock listing on the Nasdaq Stock Market following the proposed Business Combination; a delay or failure to realize the expected benefits of the proposed Business Combination; the risk that the proposed Business Combination disrupts current plans and operations as a result of the announcement and consummation of the proposed Business Combination; the ability to recognize the anticipated benefits of the proposed Business Combination, which may be affected by, among other things: future economic, financial, lending, competitive and market conditions, including healthcare spending fluctuations; future costs of and returns on capital; leverage and lending costs and terms; operating costs and future business, investment, holding and sale decisions and costs; the risks associated with MSP's business, including, among others, MSP's ability to capitalize on its assignment agreements and recover monies that were paid by the assignors; litigation results; the validity of the assignments of claims to MSP; a determination that MSP's claims are not reasonable, related or necessary; the failure of MSP's clients to renew their agreements with MSP (or terminate those agreements early); MSP's claims being within applicable statutes of limitations; the inability to successfully expand the scope of MSP's claims or obtain new data and claims from MSP's existing assignor base or otherwise; the limited number of MSP's assignors and the associated concentration of MSP's current and future potential revenue; internal improvements to claims and retail billing processes by MSP's clients that reduce the need for and revenue generated by MSP's products and services; healthcare spending fluctuations; programmatic changes to the scope of benefits and limitations to payment integrity initiatives that reduce the need for MSP's services; delays in implementing MSP's services to its claims; system interruptions or failures; cyber-security breaches and other disruptions that could compromise MSP's data; MSP's failure to maintain or upgrade its operational platforms; MSP's failure to innovate and develop new solutions, or the failure of those solutions to be adopted by MSP's existing and potential assignors; MSP's failure to comply with applicable privacy, security and data laws, regulations and standards, including with respect to third party providers; changes in legislation related to healthcare programs and policies; changes in the healthcare market; negative publicity concerning healthcare data analytics and payment accuracy; competition; successfully protecting MSP's intellectual property rights; the risk that third parties may allege infringement of their intellectual property; changes in the healthcare regulatory environment and the failure to comply with applicable laws and regulations or the increased costs associated with any such compliance; failure to manage MSP's growth; the inability to attract and retain key personnel; MSP's reliance on its senior management team and key employees and the loss it could sustain if any of those employees separated from the business; the failure of vendors and providers to deliver or perform as expected, or the loss of such vendors or providers; MSP's geographic concentration; MSP's relatively limited operating history, which makes it difficult to evaluate its current or future business prospects; the impact of the ongoing COVID-19 pandemic; and the risk that MSP may not be able to develop and maintain effective internal controls. The foregoing list of factors is not exhaustive. If any of these risks materialize or MSP's assumptions prove incorrect, actual results may differ materially from the results implied by these forward-looking statements. There may be additional risks that we do not presently know or currently believe are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. The foregoing list of factors is not exclusive. Additional information concerning certain of these and other risk factors is contained in LCAP's most recent filings with the SEC and in the Registration Statement, including the preliminary proxy statement/prospectus (and, when available, the definitive proxy statement/prospectus), filed with the SEC in connection with the proposed Business Combination.
